table heading
 table head
 table row
 table body
 table column
 table description

HTML

- 1) HTML
- 2) CSS
- 3) JS

get -> window
 rule -> window

HTML

- 1) HTML
- 2) CSS
- 3) JS

HTML is made up of
 Series of elements

1) `<p>` & `<div>` diff

`<p>` is for text
`<div>` is for container

Webpage structure what is diff
 we use tags

`<->` sentence `</->`

Heading Tag

`<h1>` opening tag
 content
`</h1>` closing tag

Element

tag + content = element

opening tag + content + closing tag

4 min → 12:05

1) img
 2) select
 3) table

3) →

do not support

`<table>`
`<thead>` → table heading
`<tr>` → table head
`<th>` → table head
`<th>` → table head
`</th>`
`</tr>`
`</thead>`
